ISRAEL JOURNAL OF TECHNOLOGY

Volume 17, 1979

NUMBER 1

- Development of a spherical reflector/tracking absorber solar energy collector
Gershon Grossman and Eliezer Fruchter 5
- Technology and performance of a high concentration solar cell power supply
J. Mandelkorn and G. Yekutieli 12
- Optimization of a solar water heating system for a Negev Kibbutz
D. Faiman, J. M. Gordon and D. Govaer 19
- Liquefaction of Hula peat
R. Ikan, V. Ginzburg, P. Ioselis, D. Hoffer, S. Brenner and J. Klein 29
- Alkanes obtained by thermal conversion of Green River oil-shale kerogen using CO and H₂O at elevated pressure
Shuang-Ling Chong, J. J. Cummins and W. E. Robinson 36
- Gasification of oil shale
Y. Schächter 51
- Straight chain compounds in Zefa-Efe shale oil and its hydrogenation products. Part 1. Separation through molecular sieve treatment
Z. Kustanovich and E. Gil-Av 58

NUMBER 2

- Three-dimensional stress and deformation analysis of rotating finned bodies
A. Abir, U. Fisher and J. J. Blech 67
- Biaxial stress-strain relationship in the skin
Y. Lanir 78
- Structural analysis by overlapping iteration
A. S. Scarlat 86
- The flow regime in the root zone around a subsurface emitter
Gideon Oron and David Karmeli 95
- Optimal control for a simple batch reactor. Alternatives and parametric sensitivity
S. Wahrmann and J. Dayan 102
- Augmented Mediterranean to Dead Sea hydroelectric power by means of augmented evaporation
P. S. Rudman 115

NOTES

- Number of days with solar radiation below or above specific values at Bet Dagan, Israel
S. Schweitzer and J. Banai 122
- Optimal synthesis of a slider-crank mechanism with a flexibly attached slider via multi-objective function theory
M. Kothari and A. C. Rao 127

NUMBER 3

- The influence of a wake splitter plate on the aerodynamic characteristics of a two-dimensional cylinder
Robert C. Nelson 131
- Solving the two point boundary value problem for the optimal control of a simple batch reactor by several methods — a comparison study
S. Wahrmann and J. Dayan 139
- Increased length may enhance buckling load
Aron Zaslavsky 151

- Transient gravity waves created against a vertical cliff
A. K. Pramanik 159
- Corrosion control on reinforced concrete structures
M. Unz 164

NOTES

- Influence of the panel parameters on its dynamic characteristics
C. Massalas and A. Leontitis 175
- Solution of Laplace's equation on the diagonals of two-dimensional square field
V. Ponnuswamy 179

NUMBER 4

- Motion of a solid particle in a rectangular horizontal duct under the influence of a turbulent air stream
Uri Navon, Hayim Rodrigue, Nesim Abuaf and Chaim Gutfinger 185
- Analysis of a Joule-Thomson cryogenic detector cooler
Aharon Oren and Chaim Gutfinger 194
- Axisymmetrical auxiliary mass nutation-damper
I. Porat 201
- Recent experiences with modelling and simulation of some industrial plants
K. H. Fasol 207
- Multi-tool machining optimization: analysis and application
G. L. Ravnani, A. Zompi and R. Levi 217
- Development of a technological data bank for milling operations
R. Weill and E. Michaeli 225

NUMBERS 5-6

- Commercial air transportation developments in the next three decades
H. W. Withington 233
- Mechanics of fracture — fundamentals and some recent developments
H. Liebowitz, N. Subramonian and J. D. Lee 273
- A method for calculating the aerodynamic forces and moments on external stores of aircraft
T. Ronen and M. Hanin 295
- Numerical simulation of unsteady transonic flows using the Euler equations in integral form
A. Lerat and J. Sidès 302
- Analyse expérimentale de la transition de la couche limite avec gradient de pression nul ou positif
Daniel Arnal, Jean-Claude Juillen et Roger Michel 311
- Initial imperfection measurements of stiffened shells and buckling predictions
J. Singer, H. Abramovich and R. Yaffe 324
- Quasilinear behavior of eccentrically stiffened compressed annular plates near the buckling point
A. Libai, M. Feder and A. Rosen 339
- Prediction of structural fatigue response under aircraft loads from material stress-strain behavior
Avraham Berkovits 347
- Note on the stability of vibrations of rectangular plates with initial imperfections
V. Birman 354
- NOTE
Modification of wing sections to optimize transonic performance
A. Luntz, Y. Barnett and I. Darel 360

SUBJECT INDEX

Aerodynamics

- Influence of a wake splitter plate on the aerodynamic characteristics of a two-dimensional cylinder, the, R. C. Nelson, 131
- Method for calculating the aerodynamic force and moments on external stores of aircraft, a, T. Ronen and M. Hanin, 295
- Modification of wing sections to optimize transonic performance, (Note), A. Luntz, Y. Barnett and I. Darel, 360
- Numerical simulation of unsteady transonic flows using the Euler equations in integral form, A. Lerat and J. Sidès, 302

Air Transportation

- Commercial air transportation developments in the next three decades, H. W. Withington, 233

Aircraft Fatigue

- Mechanics of fracture — fundamentals and some recent developments, H. Liebowitz, N. Subramonian and J. D. Lee, 273
- Prediction of structural fatigue response under aircraft loads from material stress-strain behavior, A. Berkovits, 347

Bioengineering

- Biaxial stress-strain relationship in the skin, Y. Lanir, 78

Boundary Layers

- Analyse expérimentale de la transition de la couche limite avec gradient de pression nul ou positif, D. Arnal, J.-C. Juillon et R. Michel, 311

Buckling

- Increased length may enhance buckling load, A. Zaslavsky, 151
- Initial imperfection measurements of stiffened shells and buckling predictions, J. Singer, H. Abramovich and R. Yaffe, 324
- Quasilinear behavior of eccentrically stiffened compressed annular plates near the buckling point, A. Libai, M. Feder and A. Rosen, 339
- Stability of vibrations of rectangular plates with initial imperfections, note on the, V. Birman, 354

Chain Compounds in Shale Oil

- Straight chain compounds in Zefa-Efe shale oil and its hydrogenation products. Part 1. Separation through molecular sieve treatment, Z. Kustanovich and E. Gil-Av, 58

Chemical Reactions

- Alkanes obtained by thermal conversion of Green River oil-shale kerogen using CO and H₂O at elevated pressure, S.-L. Chong, J. J. Cummins and W. E. Robinson, 36
- Gasification of shale oil, Y. Schächter, 51
- Liquefaction of Hula peat, R. Ikan, V. Ginzburg, P. Ioselis, D. Hoffer, S. Brenner and J. Klein, 29

Corrosion

- Corrosion control on reinforced concrete structures, M. Unz, 164

Design

- Commercial air transportation developments in the next three decades, H. W. Withington, 233
- Mechanics of fracture — fundamentals and some recent developments, H. Liebowitz, N. Subramonian and J. D. Lee, 273

Elasticity and Viscoelasticity

- Biaxial stress-strain relationship in the skin, Y. Lanir, 78
- Mechanics of fracture — fundamentals and some recent developments, H. Liebowitz, N. Subramonian and J. D. Lee, 273
- Prediction of structural fatigue response under aircraft loads from material stress-strain behavior, A. Berkovits, 347
- Quasilinear behavior of eccentrically stiffened compressed annular plates near the buckling point, A. Libai, M. Feder and A. Rosen, 339
- Three-dimensional stress and deformation analysis of rotating finned bodies, A. Abir, U. Fisher and J. J. Blech, 67

Fluid Dynamics

- Analyse expérimentale de la transition de la couche limite avec gradient de pression nul ou positif, D. Arnal, J.-C. Juillon et R. Michel, 311
- Flow regime in the root zone around a subsurface emitter, the, G. Oron and D. Karmeli, 95
- Influence of a wake splitter plate on the aerodynamic characteristics of a two-dimensional cylinder, the, R. C. Nelson, 131

- Method for calculating the aerodynamic forces and moments on external stores of aircraft, the, T. Rosen and M. Hanin, 295

- Motion of a solid particle in a rectangular horizontal duct under the influence of a turbulent air stream, U. Navon, H. Rodrigue, N. Abuaf and C. Gutfinger, 185
- Numerical simulation of unsteady transonic flows using the Euler equation in integral form, A. Lerat and J. Sidès, 302
- Transient gravity waves created against a vertical cliff, A. K. Pramanik, 159

Fracture Mechanics

- Mechanics of fracture — fundamentals and some recent developments, H. Liebowitz, N. Subramonian and J. D. Lee, 273

Gasification of Oil Shale

- Gasification of oil shale, Y. Schächter, 51

Hydroelectric Power

- Augmented Mediterranean to Dead Sea hydroelectric power by means of augmented evaporation, P. S. Rudman, 115

Irrigation

- Flow regime in the root zone around a subsurface emitter, the, G. Oron and D. Karmeli, 95

Liquefaction of Peat

- Liquefaction of Hula peat, R. Ikan, V. Ginzburg, P. Ioselis, D. Hoffer, S. Brenner and J. Klein, 29

Machine Elements, Tools and Machining

- Axisymmetrical auxiliary mass nutation-damper, I. Porat, 201
- Development of a technological data bank for milling operations, R. Weill and E. Michaeli, 225
- Multi-tool machining optimization: analysis and application, G. L. Ravignani, A. Zompi and R. Levi, 217
- Optimal synthesis of a slider-crank mechanism with a flexibly attached slider via multi-objective function theory, (Note), M. Kothari and A. C. Rao, 127
- Three-dimensional stress and deformation analysis of rotating finned bodies, A. Abir, U. Fisher and J. J. Blech, 67

Materials

- Corrosion control on reinforced concrete structures, M. Unz, 164
- Mechanics of fracture — fundamentals and some recent developments, H. Liebowitz, N. Subramonian and J. D. Lee, 273
- Prediction of structural fatigue response under aircraft loads from material stress-strain behavior, A. Berkovits, 347

Mathematical Methods, Simulation and Optimization

- Modification of wing sections to optimize transonic performance, (Note), A. Luntz, Y. Barnett and I. Darel, 360
- Multi-tool machining optimization: analysis and application, G. L. Ravignani, A. Zompi and R. Levi, 217

Numerical simulation of unsteady transonic flows using the Euler equation in integral form, A. Lerat and J. Sidès, 302

Optimal control for a simple batch reactor. Alternatives and parametric sensitivity, S. Wahrmann and J. Dayan, 102

Optimal synthesis of a slider-crank mechanism with a flexibly attached slider via multi-objective function theory, (Note), M. Kothari and A. C. Rao, 127

Recent experiences with modelling and simulation of some industrial plants, K. H. Fasol, 207

Solution of Laplace's equation on the diagonals of two-dimensional square field, (Note), V. Ponnuswamy, 179

Solving the two point boundary value problem for the optimal control of a simple batch reactor by several methods — a comparison study, S. Wahrmann and J. Dayan, 139

Structural analysis by overlapping iteration, A. S. Scarlat, 86

Three-dimensional stress and deformation analysis of rotating finned bodies, A. Abir, U. Fisher and J. J. Blech, 67

Modelling and Simulation of Industrial Plants

Recent experiences with modelling and simulation of some industrial plants, K. H. Fasol, 207

Oil-shale

Alkanes obtained by thermal conversion of Green River oil-shale kerogen using CO and H₂O at elevated pressure, S.-L. Chong, J. J. Cummins and W. E. Robinson, 36

Gasification of shale oil, Y. Schächter, 51

Straight chain compounds in Zefa-Ef'e shale oil and its hydrogenation products. Part 1. Separation through molecular sieve treatment, Z. Kustanovich and E. Gil-Av, 58

Power Augmentation

Augmented Mediterranean to Dead Sea hydroelectric power by means of augmented evaporation, P. S. Rudman, 115

Reactors

Optimal control for a simple batch reactor. Alternatives and parametric sensitivity, S. Wahrmann and J. Dayan, 102

Solving the two point boundary value problem for the optimal control of a simple batch reactor by several methods — a comparison study, S. Wahrmann and J. Dayan, 139

Rotor Dynamics

Axisymmetrical auxiliary mass nutation-damper, I. Porat, 201

Shells and Plates

Influence of the panel parameters on its dynamic characteristics, (Note), C. Massalas and A. Leontitsis, 175

Initial imperfection measurements of stiffened shells and buckling predictions, J. Singer, H. Abramovich and R. Yaffe, 324

Quasilinear behavior of eccentrically stiffened compressed annular plates near the buckling point, A. Libai, M. Feder and A. Rosen, 339

Stability of vibrations of rectangular plates with initial imperfections, note on the, V. Birman, 354

Slider-Crank Mechanism

Optimal synthesis of a slider-crank mechanism with a flexibly attached slider via multi-objective function theory, (Note), M. Kothari and A. C. Rao, 127

Solar Cell Power

Technology and performance of a high concentration solar cell power supply, J. Mandelkorn and G. Yekutieli, 12

Solar Collector

Development of a spherical reflector/tracking absorber solar energy collector, G. Grossman and E. Fruchter, 5

Optimization of a solar water heating system for a Negev Kibbutz, D. Faiman, J. M. Gordon and D. Govaer, 19

Solar Radiation

Number of days with solar radiation below or above specific values at Bet Dagan, Israel, (Note), S. Schweitzer and J. Banai, 122

Structural Analysis and Stability

Increased length may enhance buckling load, A. Zaslavsky, 151

Initial imperfection measurements of stiffened shells and buckling predictions, J. Singer, H. Abramovich and R. Yaffe, 324

Mechanics of fracture — fundamentals and some recent developments, H. Liebowitz, N. Subramonian and J. D. Lee, 273

Prediction of structural fatigue response under aircraft loads from material stress-strain behavior, A. Berkovits, 347

Quasilinear behavior of eccentrically stiffened compressed annular plates near the buckling point, A. Libai, M. Feder and A. Rosen, 339

Stability of vibrations of rectangular plates with initial imperfections, note on the, V. Birman, 354

Structural analysis by overlapping iteration, A. S. Scarlat, 86

Technological Data Bank

Development of a technological data bank for milling operations, R. Weill and E. Michaeli, 225

Thermal Conversion of Oil-Shale Kerogen

Alkanes obtained by thermal conversion of Green River oil-shale kerogen using CO and H₂O at elevated pressure, S.-L. Chong, J. J. Cummins and W. E. Robinson, 36

Thermodynamics

Analysis of a Joule-Thomson cryogenic detector cooler, A. Oren and C. Gutfinger, 194

Optimal control for a simple batch reactor. Alternatives and parametric sensitivity, S. Wahrmann and J. Dayan, 102

Solving the two point boundary value problem for the optimal control of a simple batch reactor by several methods — a comparison study, S. Wahrmann and J. Dayan, 139

Transport Phenomena: Heat and Mass

Analysis of a Joule-Thomson cryogenic detector cooler, A. Oren and C. Gutfinger, 194

Turbulence

Analyse expérimentale de la transition de la couche limite avec gradient de pression nul ou positif, D. Arnal, J.-C. Juillen et R. Michel, 311

Influence of a wake splitter plate on the aerodynamic characteristics of a two-dimensional cylinder, the, R. C. Nelson, 131

Motion of a solid particle in a rectangular horizontal duct under the influence of a turbulent air stream, U. Navon, H. Rodrigue, N. Abuaf and C. Gutfinger, 185

Vibrations

Axisymmetrical auxiliary mass nutation-damper, I. Porat, 201
Influence of the panel parameters on its dynamic characteristics, (Note), C. Massalas and A. Leontitsis, 175

Stability of vibrations of rectangular plates with initial imperfections, note on the, V. Birman, 354

Waves

Analyse expérimentale de la transition de la couche limite avec gradient de pression nul ou positif, D. Arnal, J.-C. Juillen et R. Michel, 311

Influence of a wake splitter plate on the aerodynamic characteristics of a two-dimensional cylinder, the, R. C. Nelson, 131

Transient gravity waves created against a vertical cliff, A. K. Pramanik, 159
